Dear Sir or Madam,

The purpose of this letter is to update you on the status of the Draft Busseron Creek Watershed Total Maximum Daily Load (TMDL) report. IDEM has decided to suspend the public comment period in order to reevaluate sections of this report. The Busseron Creek Watershed TMDL document addresses water quality impairments for Busseron Creek and its tributaries that include Impaired Biotic Communities, Aluminum, Iron, pH, Phosphorus, Manganese, Zinc, Dissolved Oxygen, and Total Suspended Solids.

The revised draft TMDL for the Busseron Creek Watershed is posted on IDEM's website at:

<http://www.in.gov/idem/4685.htm> - scroll down to Busseron Creek documents

Please contact Andrew Pelloso at 317-233-2481 or apellosa@idem.in.gov with any questions.

Sincerely,

Andrew Pelloso, Chief
NPS/TMDL Section
Office of Water Quality
